UNIVERSITY ADMISSIONS SERVICES

Why IPC Gulf?

Founded in 2003, International Placewell Consultants Gulf is a respectable educational consulting firm. With licenses from the Ministry of Education, UAE, and the KHDA, we represent a number of top-ranked universities across the globe.

Our team of experienced consultants specializes in offering comprehensive guidance for academic institutions. We stay current with the latest developments and understand the various issues related to academics, personal matters, and financial concerns. We provide personalized support to students through a detailed profiling and individual counseling process, making the competitive and complex application process simpler and more manageable.

1

EDUCATION COUNSELLING

Education Counselling is done through in-person and offline sessions. The experienced counsellors provide personal advice and counselling to the students to promote an informed choice.

2

SKILL DEVELOPMENT PLAN

After determining the Skill Gap, the team creates a Skill Development Plan for the student, giving them an idea of what is expected and what they can expect on their journey ahead.

The admissions team evaluates each student as a complete package, considering their talents, interests, passions, and skills. They do not limit themselves to grades and test scores when selecting the most dynamic group of students. The typical applicant comes from various backgrounds and has various intellectual passions and interests.

To identify activities and academic interests that will positively impact the admissions team, the IPC Gulf team relies on the Skill Development Plan.

3

APPLICATION PROCESS

Our experienced team of specialist consultants possesses a comprehensive understanding of academic institutions, current information on the latest developments and a sound understanding of the issues concerning academic, personal and financial matters. Our team provides students with expert and highly informed support in every aspect of their applications to simplify the competitive and complex application process.

University Representative

International Placewell Consultants FZ-LLC began operating in Dubai in 2003. Since then, IPC Gulf has been helping students confidently take their first step towards achieving their life goals and international education.

IPC Gulf has been granted its license by the United Arab Emirates, Ministry of Education and KHDA, which are appropriate instruments for assessing the level of dedication and knowledge offered to students. We strive to provide thorough and accurate responses to their queries.

At IPC Gulf, we understand that every student is unique and has individual goals that are influenced by their needs and aspirations. Hence, we offer a range of services to enable them to make an informed choice for higher education.

OUR BELIEF

Each student is unique and thus has individual choices for their career path. We factor in not just the choice but also the eligibility and university prerequisites and assist the student in making an informed decision that best meets their needs,

OUR MISSION

Empower a student in covering the distance from confusion to clarity through our expert advice.

OUR PURPOSE

IPC, Gulf's main goal is to provide a variety of services to allow students to fully research and confidently decide on their higher education options.

We serve as the link between the institution and the student and ensure that prospective applicants have access to academic services that are real, in their best interests, and appropriate for their individual needs. We uphold the highest ethical standards and collect and monitor ongoing input from those who use our services.

Training & Capacity Building

With over two decades of experience, we are committed to sharing our industry expertise through a series of training workshops. We have developed a relevant and specialized program to equip teachers and school counselors with the skills to provide effective developmental academic guidance in schools.

The “Guiding Future: Developmental Academic Guidance Program” is an innovative initiative designed to empower secondary school teachers and counselors with the knowledge and skills necessary to deliver structured academic guidance. This program aligns with the goals outlined in the National Education Policy (NEP) 2020, which highlights the essential need for skilled counselors to assist students in navigating academic, career, and skill-development pathways. The program covers academic guidance beyond the prevalent admission counselling program currently available.

OUR VISION

Train teachers and counselors to offer structured, relevant developmental academic guidance tailored to the Indian education environment, addressing the unique challenges and opportunities faced by students.

In addition, we lead and conduct capacity-building programs/workshops for K-12 school principals and school teachers. We have held several workshops on various topics, aligned with education pedagogy and leadership, with some of the respectable schools both within India and Middle-East.

TOPICS UNDER EDUCATION LEADERSHIP SERIES:

1. Pedagogical Leadership
2. Transformational Leadership
3. Creating Schools as Learning Organizations (SLO)
4. Social-Emotional Leadership (SEL)
5. Ethical Leadership
6. Emotional Intelligence in Leadership
7. Growth Mindset - Tools and importance
8. Leader of Learning
9. Diversity, Equity and Inclusivity in School Leadership (DEI)
